

## Project Report Rubric

Section	Level 1	Level 2	Level 3	Level 4
<b>Abstract</b>	Abstract doesn't summarize contents of report. Numerous spelling and grammar issues.	Abstract summarizes some contents of report. Several spelling and grammar issues.	Abstract mostly summarizes contents of report. Few spelling and grammar issues.	Abstract accurately summarizes contents of report. No spelling and grammar issues.
<b>Introduction</b>	Provides poor definition of problem and motivation behind implementing a solution.	Provides adequate definition of problem and motivation behind implementing a solution.	Provides good definition of problem and motivation behind implementing a solution.	Provides excellent definition of problem and motivation behind implementing a solution.
<b>Related Work (Only for final report)</b>	Poor overview of related problems and approaches	Limited overview of related problems and approaches	Good overview of related problems and approaches.	Excellent overview of related problems and approaches
<b>Dataset</b>	Poor description of dataset.	Limited description of dataset.	Good description of dataset.	Excellent description of dataset.
<b>Methodology</b>	Poor overview of methodology. Methods do not meet expectations for course requirements.	Limited overview of methodology. Methods marginally meet expectations for course requirements.	Good overview of methodology. Methods meet expectations for course requirements.	Excellent overview of methodology. Methods exceed expectation for course requirements
<b>Results and Analysis</b>	Poor description of current results and expected outcome.	Limited description of current results and expected outcome.	Good description of current results and expected outcome.	Excellent description of current results and expected outcome.
<b>Next Steps</b>	Poor description of next steps.	Limited description of next steps.	Good description of next steps.	Excellent description of next steps.
<b>References</b>	Few reference follow IEEE citation format	Some reference follow IEEE citation format	Most reference follow IEEE citation format	All reference follow IEEE citation format
<b>Formatting</b>	Report rarely adheres to IEEE conference format.	Report sometimes adheres to IEEE conference format.	Report usually adheres to IEEE conference format.	Report always adheres to IEEE conference format.
